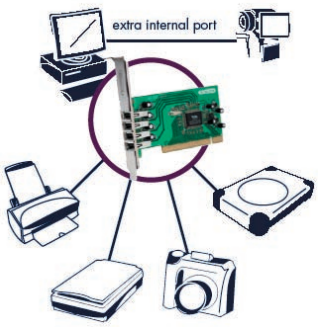
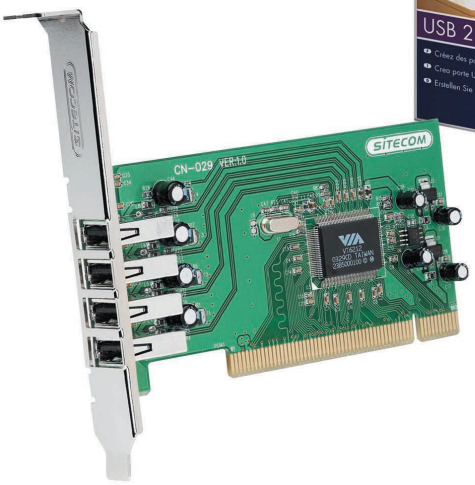
CONNECTIVITY

Data sheet: CN-029





Product code	:	CN-029
Product name	:	USB 2.0 PCI Card
EAN code	:	8716502005291
Qty. masterpack / carton	:	5/20
Gift box weight	:	To be dated
Gift box dimensions	:	209 (W) x 45 (D) x 145,5 mm (H)
Masterpack weight	:	To be dated
Masterpack dimensions	:	To be dated

Building this USB 2.0 PCI Card into your PC immediately provides you with the USB 2.0 standard. You can use the 4 connections on the card to connect high speed USB devices, such as a card reader, an external hard disc or a digital camera. If those devices also feature USB 2.0 functionality, a lightning-fast data transfer between the PC and the equipment of no less than 480 Mbps is possible. This not only enables you to quickly and reliably upload digital photos and copy files, but also to create a network connection via USB 2 .0, for example. The USB 2.0 PCI Card is also downward compatible with USB 1.1 equipment.

Box content:

- USB 2.0 Card
- Driver CD
- User manual

System requirements:

- Windows 98/2000/ME/XP
- Free PCI slot
- CD Rom drive

Key features:

- USB 2.0 Standard
- Up to 480 Mbps transfer rate
- Creates 4 extra USB 2.0 connections

Technical specifications:

- Compliant with Universal Serial Bus Specification Revision 2.0
- Compliant with Universal Host Controller Interface Specification Revision 1.1
- Compliant with Enhanced Host Controller Interface Specification Revision1.0
- Supports PCI-Bus Power Management Interface Specification release 1.1
- PCI multi-function device consists of two UHCI Host Controllers for full/low-speed signaling and one EHCI Host Controllers 2/4 Downstream facing ports in the root hub with integrated physical layer Transceivers shared by UHCI and EHCI Host Controllers
- DMA engines with pipelined control for USB data transfer bandwidth improvement
